

FOR INDEPENDENT READY-MIX TRUCK OWNERS

# ReadyHaul for FOB Drivers

**Free for drivers. Paid by the RMC. No bidding.**

A walkthrough of the driver experience — from job alert to paid haul.

# What is ReadyHaul?

A free marketplace that texts overflow ready-mix loads to independent FOB drivers in Houston.

1

## Free for drivers

No subscription, no platform fees, no commission. Ever.

2

## RMC pays you direct

ReadyHaul does not touch your money. The plant pays you on their normal terms.

3

## You stay independent

You decide when you're online, which loads to take, and how to run your truck.

# Why drivers use it

Three reasons FOB owner-operators sign up and stay.

1

## More loads without prospecting

Plants text you when they have overflow. You stop chasing dispatchers.

2

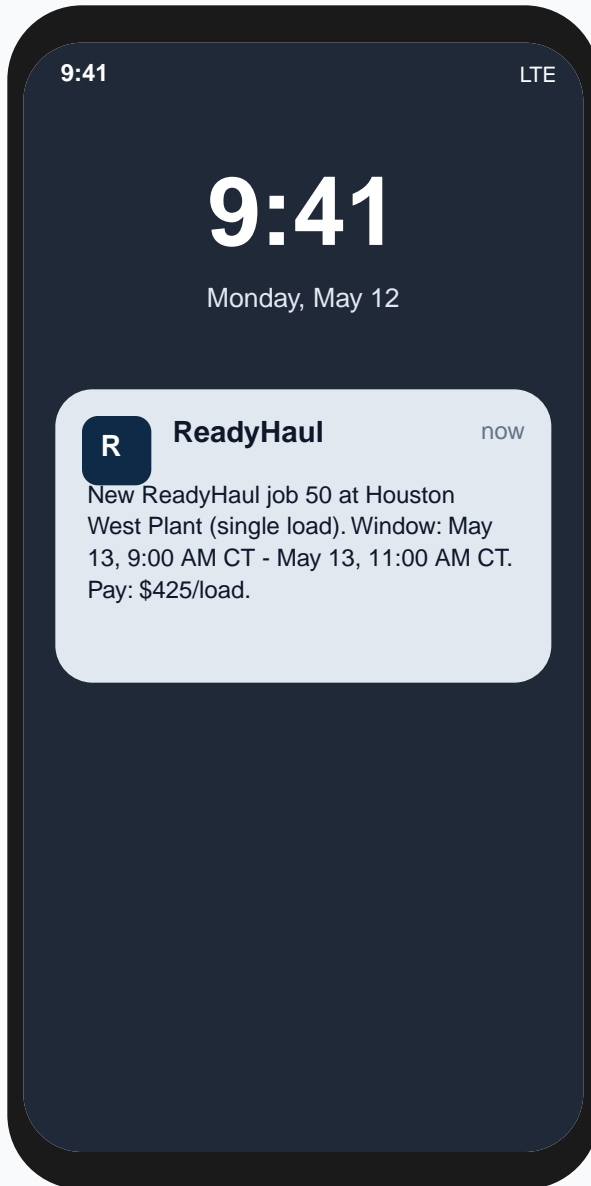

## No double-booking headaches

Once you accept, the load is locked to you — first-tap-wins, no bidding.

3

## Clean Work Summary for AP

Every completed haul generates a one-page summary the RMC's accounts payable team can pay against.

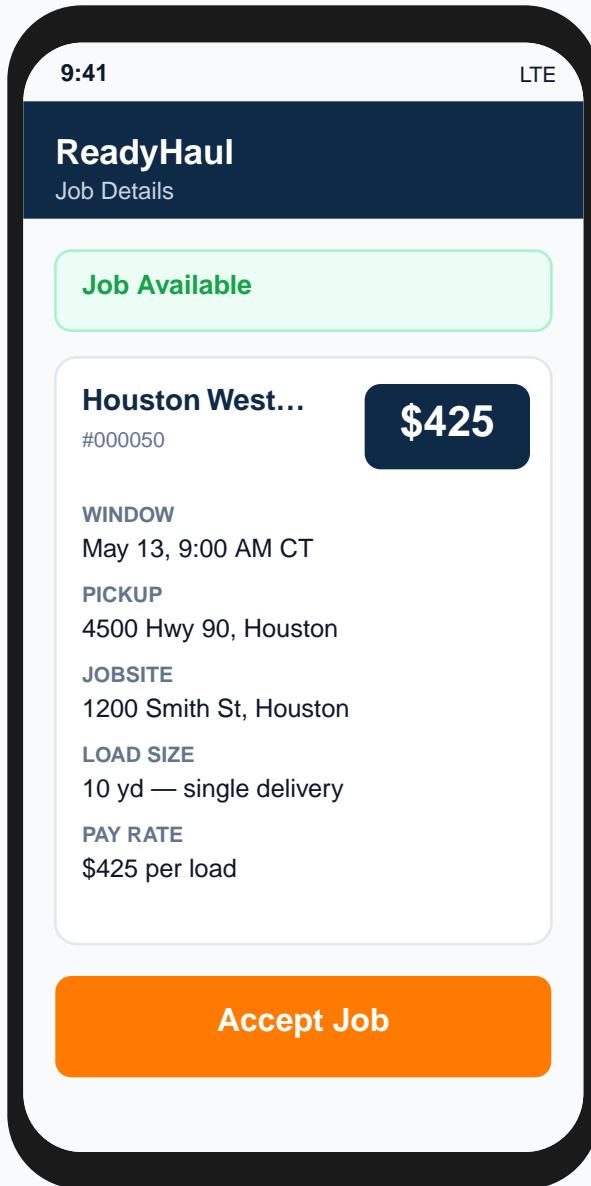

## 1. The job alert hits your phone

ReadyHaul texts you the moment a Houston batch plant has a load that fits your truck. The text matches your account language. A separate email includes the one-tap job link — no app to install up front.

### WHAT THIS MEANS FOR YOU

**You hear about loads first. No phone tag, no chasing dispatchers.**

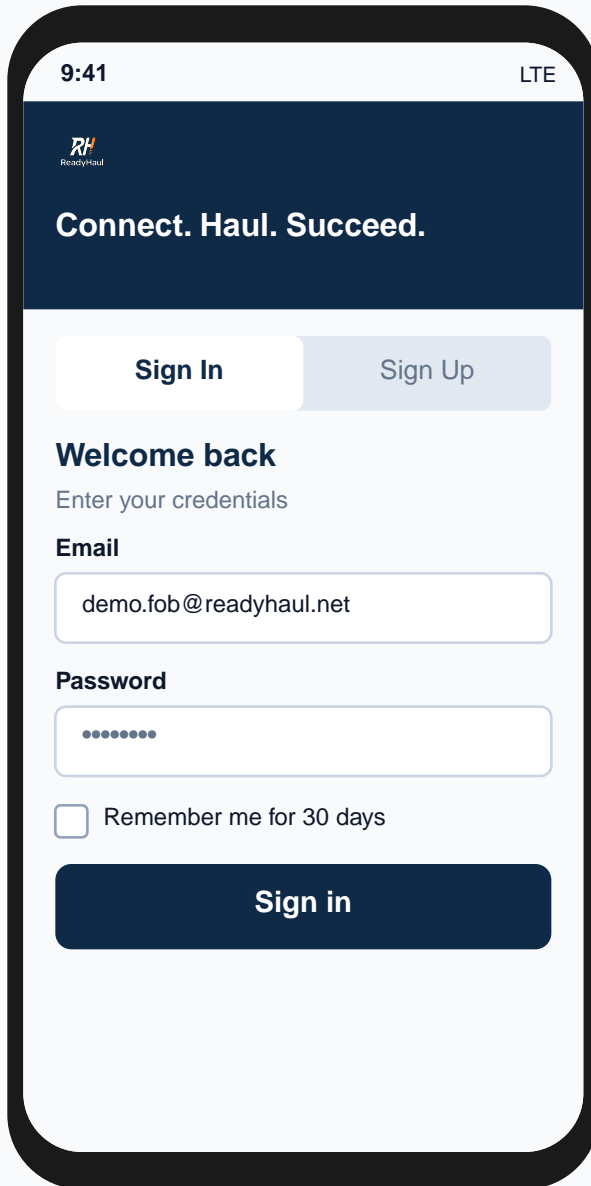

## 2. See the job in one tap

The link opens a clean, mobile-first job page. Pickup, jobsite, window, yards, and pay are all on one screen — no login required to look.
